

## Call for Poster Abstracts - European Bioeconomy Scientific Forum 2025

The European Bioeconomy Scientific Forum (EBSF) is the official biannual event of all [European Bioeconomy University Alliance's \(EBU\) representatives](#). The EBSF2025 (11<sup>th</sup>-13<sup>th</sup> June 2025 in Joensuu, Finland) now **invites abstracts for Poster Presentations**.

Along the lines of the theme of the Forum, “*Boosting regional and international bioeconomy collaboration and skills*”, the contributed posters are expected to shed light on the various successful and forerunner examples of bioeconomy partnerships and competence enhancements. The contributions may contain but are not restricted to multi-scalar networks, cross-disciplinary or cross-sectoral projects, multi-stakeholder innovation processes, academia-industry interactions, teaching and learning initiatives, and student-centred approaches.

We encourage early-stage researchers (Doctoral and Postdoctoral Researchers) to submit poster abstracts. Authors of accepted abstracts will be instructed to prepare posters, which will be exhibited and presented in EBSF's special session dedicated to posters, featuring poster pitch talks. Best poster awards will be delivered, and electronic versions of all contributed abstracts will be published on the Forum's section at the European Bioeconomy University's website.

Please submit your poster abstract (title, authors with affiliations and abstract text (max 250 words) and keywords with electronic form at <https://link.webropol.com/s/EBSF2025> by **20 February 2025**. Decision on the acceptance of the abstracts will be communicated to lead authors by **1 March 2025**.

Questions may be addressed to the Chief Secretary of EBU Presidency Chair, Denis Dobrynin ([denis.dobrynin@uef.fi](mailto:denis.dobrynin@uef.fi)).
